INFOCOMM CLUB (JH & SH)

CCA days and timings:

JH - Friday (2.45 pm to 6.00 pm)
SH - Friday (4.00 pm to 6.00 pm)

Venue:

JH - Comp Lab J2
SH - Comp Lab S2

Introduction:

In Infocomm Club, we develop the servant leadership, creative problem solving, effective communication and collaboration skills of our members by providing them with abundant self-directed opportunities to learn and apply infocomm technologies to real world contexts. Members are exposed to national and international programmes as well as community service outreach activities. You will definitely take away something when you join Infocomm Club, be it technical know-how, translatable soft skills or well-bonded friendships!

FOSSASIA Open Tech Summit, PyCon SG/APAC - VIA (annual)

INTERNATIONAL AND STRATEGIC AFFAIRS COUNCIL (SH)

CCA days and timings:	
Wednesday: 2:30 pm to 5.30 pm	
Venue:	
Humanities Room / Math Sphere	
Introduction:	

The International and Strategic Affairs Council (ISAC) is part of the school's Talent Development Programme for students interested in Model United Nations (MUN) and current affairs. ISAC seeks to nurture leaders who are passionate about pertinent societal issues, and possess the will to make a positive difference to society. It also seeks to inculcate an interest in diplomacy, active citizenry and leadership among Dunmanians.

Our training sessions nurture sensitivity to pertinent global issues, oratorical skills and critical thinking. ISACers actively participate in Model United Nations conferences such as the Model United Nations Preparatory Conference and the Singapore Model Cabinet. At these conferences, ISACers represent countries as delegates in simulated sessions of United Nations bodies to debate about a variety of topics.

Additionally, ISACers have represented Dunman High School at a variety of current affairs competitions such as the biennial Singapore ASEAN Quiz and the National University of Singapore Political Association Chancellors' Challenge Shield.

Beyond developing academic knowledge and oratorical skills, ISACers will hone their organisational skills in the planning of our flagship MUN conference, the Dunman High Model ASEAN Plus Summit (DHAP), which attracts participants from the region.
